

MESSAGE TO SHAREHOLDERS

Dear Shareholders,

We have been made aware of a scam being operated on a small number of Nexus Shareholders by a company claiming to be based in New York and wishing to buy Nexus Management shares.

This company offers a very high price for Nexus shares saying that a wealthy family wants to take control of Nexus for the patents it holds. They then attempt to sell the shareholder an insurance policy protecting against a non disclosure breach. If paid the shareholder is then left out of pocket for the fictitious insurance and no transaction for the shares ever takes place.

Please be vigilant against this fraud.

Yours Sincerely

R.A.Richardson
Chief Executive.
